

MANAGED CARE ORGANIZATION - ONLY PROVIDER (MCOP) PROVIDER TAXONOMY SCREENING

Provider Risk Levels: Based on the potential for fraud, waste, and abuse, CMS has assessed the various Medicare provider types and assigned risk categories. DMAP assigned risk categories in accordance with CMS guidelines for non-Medicare providers. The risk categories are "limited," "moderate," and "high."

Application Fees: CMS requires States to impose an application fee on institutional providers for program integrity purposes. The enrollment fee is established by CMS and is updated annually. CMS defines an institutional provider as any provider that submits the following forms for enrollment: CMS-855A, CMS-855B, CMS-855S, and associated PECOS enrollment applications. Individual physicians and non-physician practitioners are not subject to the application fee. Providers who are enrolled in or have paid the application fee to Medicare or another State's Medicaid or CHIP Program are exempt from paying the fee to DMAP. For providers who do not meet any of the exception criteria, Medicaid application fees are due at enrollment, re-enrollment, and revalidation. Providers may request a hardship exception from CMS as needed.
