5. Starting January 2017, the fee schedule is separated into four (4) sections:
- Codes with No Modifiers
 - Anesthesia
 - Codes with Modifiers
 - RBRVS (Resource-based relative value scale). At the beginning of the RBRVS section, there is a listing of the *Place of Service* that contains recognized facilities.

6. A Rate Type Legend is located on the first page of the Physician Fee Schedule.

- DEF = Default (no other specific rate available)
- FQH = FQHC (Federally Qualified Health Center) Rates
- VFC = Vaccines for Children
- MAN = Manually Priced
- PRB = Provider Specific (previously referred to as Level 1 rates)

7. **Notes:**

- While every effort is made to ensure fee schedule is current, these rates are subject to change without notice, and publishing the fee schedule does not in any way guarantee a provider payment for services.
- The RBRVS section has two types of rates – Facility and Non-Facility. At the beginning of the RBRVS section there is a listing of the *Place of Service* that are recognized as facilities. All other *Place of Service* are recognized as non-facility.
- J-Codes are priced at the invoice price or ASP+ 6% if the cost of the product is under \$50.
